HARRISONBURG — 47 West Court Square — VIRGINIA

Asparagus

Mary Washington.—Pkt. 5c; oz. 15c; ¼ lb. 30c; lb. \$1.00. Postpaid.

Asparagus Roots

Mary Washington.—(1 and 3 year old) 30c; per doz.; \$1.50 per 100; \$12.00 per 1000. Not Postpaid.

Broccoli

(Winter Cauliflower)....Broccoli is similar to and culture the same as Cauliflower. It is well adapted to those sections where the season is long, cool, and rather moist. It withstands greater extremes of temperature than Cauliflower. Also known as Calabrese and Italian Sprouting producing an abundance of greens that are prepared in the same manner as Asparagus; has a delicious and delicate flavor appreciated by every user. Green Sprouting Pkt. 5c; oz. 30c; ¼ lb. \$1.00; 1 lb. \$3.00 Postpaid.

Brussels Sprouts

Brussels Sprouts

Brussels Sprouts is a delicious vegetable belonging to the Cabbage family but it excels Cabbage in mildness and sweetness. Culture is the same as Cabbage and should be sown in April or May in open ground. It is mostly grown for Winter use and as the plants are quite hardy they are allowed to remain in the garden until after frost which improves the quality. Long Island Improved.—Pkt. 5c; oz. 20c; ¼ lb 60c; lb \$2.00. Postpaid.

Directions for Ordering

By careful observing the following instructions, mistakes and misunderstandings will be very largely avoided.

We pay the Postage on all Vegetable and Flower Seeds in this list, except where otherwise specified. Field Seeds and Supplies are priced f. o. b., Harrisonburg, Va.; if by mail add postage. We guarantee safe delivery of the goods to your home.

Be sure to sign your Name, Post Office, Rural Route, and State on every order. Tell us your nearest express office if your order is to be sent by express. Write plainly.

If C. O. D., shipment is desired, one-fourth of the amount of the order must accompany the order. No plants shipped C. O. D.

ALL FARMERS AND GARDENERS OF EXPERIENCE know that success with seeds depends largely on weather conditions and proper cultivation, so in accordance with the universal custom of the trade THE WETSEL SEED CO., INC., gives no warranty, expressed or implied, as to the description, quality, productiveness, or any other matter, of any seeds, bulbs, plants, or roots they send out, and they will not be in any way responsible for the crop.

Bush Snap Beans

DWARF GREEN POD

Not Postpaid
1 lb. 5 lbs. 10 lbs.

Bountiful (Early Six Weeks)

Continuous cropper, tender and stringless. Most popular flat green-podded bean 5 to 6 in. long. It is hardy, extremely early, thick meaty, melting tender and with scarcely a trace of string.20c 90c \$1.60

Fordhook Favorite (42 days)

A superb stringless tender snap Bean with pure white seeds. Excellent for Winter use. This is a most popular, absolutely stringless green-podded bush bean with white seeds. They produce an enormous yield of pods 5½ to 6 in. brittle, tender, and very juicy. Bushes 18 to 20 in. high.25c 1.00 1.80

Bush Lima Beans

	Not Postpaid	1 lb.	5 lbs. 10 lbs.
Early Giant-Podded—The largest and earliest bush Lima. Pods contain four to five large beans set close together. Two weeks earlier than the Fordhook. It is very prolific and of excellent quality.	30c	1.35	2.50
Fordhook	30c	1.35	2.50
Burpee's Improved	25c	1.00	1.80
Henderson (Very prolific)	20c	90c	1.60

Pole Lima Beans

	Not Postpaid	1 lb.	5 lbs. 10 lbs.
Early Leviathan—A week earlier than any of the other pole Limas. Pods borne in large clusters and contain four to five good-sized beans. Very productive.	30c	1.35	2.50
King of the Garden	25c	1.00	1.80
Giant Podded (Extra Large)	30c	1.35	2.50
Carolina or Sieva	20c	90c	1.60

Table Beets

	Pkt.	oz.	1/4 lb.	1 lb.
Detroit Dark Red—An early maturing Beet of most remarkable uniformity. Splendid for the home garden, for market, for shipping, and for canning. Flesh is very dark blood-red, tender, fine grained, and exceptionally sweet.	5c	10c	30c	90c
Early Blood Turnip	5c	10c	30c	85c
Early Eclipse	5c	10c	30c	85c
Crosby's Early Egyptian	5c	10c	30c	85c
Large Late Red	5c	10c	30c	85c
White Sugar	5c	10c	25c	70c

Lucullus Swiss Chard

Swiss Chard—This vegetable is becoming more popular every year. Besides the rich green foliage which is cooked like Spinach, the tender white leaf stalk may be prepared like Asparagus and in this way two entirely different dishes may be had from the same plant. Sow seed early in Spring and you will have greens until frost Lucullus Pkt. 5c; oz. 10c; 1/4 lb. 25c 1 lb. 80c. Postpaid

Mangels or Stock Beets

	Pkt.	oz.	1/4 lb.	1 lb.
Golden Tankard	5c	8c	25c	65c
Large Red	5c	8c	25c	65c
Danish Ludstrup	5c	8c	25c	65c

Golden Acre Cabbage

	Pkt.	oz.	1/4 lb.	1 lb.
All Season—This large heavy Cabbage is fine for Fall use and Winter storage. The heads measure 10 to 11 in. across and 7 in. deep. They are solid and heavy, weighing from 9 to 10 lbs. each. It has the reputation of doing better in hot dry weather than any other Cabbage. The heads are round, flattened on the top. Also used for early planting.	5c	20c	70c	2.25
Red Danish Round—Solid, medium heads of rich dark red that extends into very center. It is used extensively for salads and pickling.	5c	20c	75c	2.50
Early Jersey Wakefield	5c	20c	70c	2.00
Charleston Wakefield	5c	20c	70c	2.00
Golden Acre	5c	20c	75c	2.50

Early Summer	5c	20c	65c	2.00
Late Flat Dutch	5c	20c	70c	2.00
Late Drumhead	5c	20c	70c	2.00
Danish Ballhead	5c	20c	70c	2.25
Houser	5c	20c	75c	2.50
Wisconsin Hollander	5c	20c	75c	2.50
Penn. State Ballhead	5c	40c	1.25	4.25
Surehead (Late)	5c	20c	70c	2.25
Chinese — This exceptionally fine vegetable is a native of China. Sow seed like Cabbage in August. When the outer leaves are stripped off shows a picture of Lettuce and Celery combined. Shredded it makes the finest slaw and stripped of its mid-ribs, which are eaten like Celery, it makes a fine salad. Also possesses a very mild flavor	5c	20c	60c	2.00

Carrots

	Pkt.	oz.	1/4 lb.	1 lb.
Pride of Denmark—A new Carrot introduced by a Danish seed grower. We have found it to be an excellent Carrot of medium size, fine flavor, rich dark orange color, and unusually productive.	5c	15c	50c	1.75
Chantenay, or Model	5c	15c	40c	1.40
Early Scarlet Short Horn	5c	15c	40c	1.25
Danver Half Long	5c	15c	40c	1.50

Snowball Cauliflower

Cauliflower

Early Snowball—One of our choicest vegetables. Requires same treatment and cultivation as Cabbage but can be grown both early and late. Not so hardy or resistant to hot, dry, or cold weather as Cabbage and requires abundance of water in Summer. Pkt. 5c; oz. \$1.00; 1/4 lb. \$3.50 Postpaid.

Celeriac

Non Plus Ultra (Turnip Rooted Celery) The plant forms a thick edible root and requires no hilling. The flesh is pure white and tender. The flavor is not unlike that of the blanching type of Celery. It may be either cooked and creamed or served cold with vinegar as a salad. Its main use, however, consists in adding flavor to soups and stews of which it has no equal. Pkt. 5c; oz. 25c; 1/4 lb. 75c Postpaid.

Fordhook Celery

Celery

	Pkt.	oz.	1/4 lb.	1 lb.
Fordhook—This variety is without question the finest in existence. The plants are stocky and compact averaging 15 to 18 in. and easily blanched. Always tender, crisp, juicy, and a fine keeper.	5c	30c	1.00	3.25
Golden Self Blanching	5c	30c	85c	3.00

Giant Pascal	5c	20c	75c	2.50
Winter Queen	5c	20c	75c	2.50
Golden Hearted	5c	20c	75c	2.50
Columbia	5c	25c	90c	3.00

Collards

Georgia, Southern or Creole—One of the most popular Southern vegetables, largely used in place of Cabbage. It is hardier and easier to grow than Cabbage and can be grown on poorer soil and withstand insects better. Cultivate like late Cabbage. Pkt. 5c; oz. 15c; 1/4 lb. 35c. Paid-postpaid.

Sweet or Sugar Corn

	Not Postpaid	1 lb.	5 lbs. 10 lbs.
Golden Cross—The greatest advance in Sweet Corn since Golden Bantam was introduced. A bright yellow 12-rowed Corn with quality equal to Golden Bantam in every way. Very resistant to Bacterial Wilt and Stewart's Disease. Two or three times as productive as Golden Bantam and only six days later in maturity.	35c	1.50	2.75
Tendergold Hybrid—A very fine Hybrid of outstanding quality introduced after years of research. Four days earlier than Golden Bantam and generally twice as productive. For tenderness and succulence we have never seen its equal and it holds its fine quality two to three days longer than other corns. The eight inch, 12-rowed ears are very attractive and command a premium on the market. Resistant to Bacterial Wilt or Stewart's Disease	35c	1.50	2.75

Herbs (For Flavoring)

	Pkt.	oz.	1/4 lb.	1 lb.
Dill—Young stems used for flavoring soups and sauces. Dry branches and seeds are much prized for flavoring pickles, and seeds also used extensively in making sour-kraut. Sow seed in early Spring.				
	5c	10c	30c	90c
Sage—An indispensable perennial Herb much in demand for adding flavor to many kinds of dishes. Used fresh or dry.				
	5c	25c	85c	3.00

Kale

	Pkt.	oz.	1/4 lb.	1 lb.
Dwarf Blue Curled Scotch—Hardy-compact, and of an outstanding bluish green color. Short stemmed and of strong growth. Extremely fine curled and especially desirable for Fall planting.				
	5c	10c	25c	90c
Tall Spring Kale	5c	10c	25c	70c
Early Curled Siberian	5c	10c	25c	80c

Kohl Rabi

Early White Vienna—A peculiar vegetable belonging to the Cabbage family and forming a turnip-shaped bulb above ground, which is used in the same manner as Turnips. Sow in June or July and should be used when young and tender. Pkt. 5c; oz. 15c; 1/4 lb. 50c; 1 lb. \$1.70. Postpaid

Big Boston Lettuce

Lettuce

	Pkt.	oz.	1/4 lb.	1 lb.
California Cream Butter—A first quality variety for the home garden and market. Particularly adapted for early Summer planting. Heads are large size and very solid. Outer leaves of dark glossy green while heart is blanched to a beautiful golden yellow and has fine flavor.

Wetsel's Dependable Field Seeds

Korean Lespedeza

ANNUAL..

A legume that will grow in acid soil and on thin worn-out lands. Very drought resistant. Can be sown without soil preparation. Will reseed and come from year to year. Should be in every pasture. Inoculate, using NITRAGIN inoculation. High Grade Local-Grown Seed. 8c lb.; \$7.00 per 100 lbs.

Sericea Lespedeza

A perennial, once started will stand indefinitely—very hardy and drought resistant. Thrives on thin acid soil. Very leafy and a heavy seeder. Will make two cuttings the first year. A heavy and deep rooted system. Plant in Spring after danger of killing frost. Sow about 2 lbs. per acre, in three foot rows, and cultivate first year. Cover about eighth inch. Inoculate using NITRAGIN inoculation.

Certified and Scarified Seed
35c lb.; 10 lbs. \$3.30; 100 lbs. \$28.00

Seed Oats

Jansen's Prolific—If you use seed Oats this Spring you want to be sure and try this variety. This is a new variety of Oats grown in Pennsylvania and Ohio and resembles the Swedish type somewhat. The kernels are very large and heavy, weighing approximately fifty pounds per measured bushel. Try some this year. Bu. 80c; 10 Bu. lots 75c per bu.

Field Corn

(Selected and Tested. Price subject to change).

Reid's Yellow Dent—One of the most popular yellow dent varieties. Ears average 9 to 11 inches in length; deep rich, golden yellow kernels. Matures in 115 days. Our seed is from certified stock one year removed. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Lancaster Sure Crop—This variety has given excellent results the past few years especially on thin land. Ears 10 to 14 inches long with 14 to 16 rows of yellow broad grains. Season 90 to 110 days. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Bloody Butcher—In recent years this variety has become very popular because of its yielding qualities and its ability to produce a crop under adverse conditions. Kernels speckled red and yellow. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Early Massodent—Sometimes called White-Cap. Ears large, grains rather deep, pale yellow on cob, but shows up as a rich yellow when shelled. Medium fodder, fine for poor land. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Gold Standard—A fine variety resembling Reid's Yellow Dent except that it is earlier, ears may be a little longer, and a rich golden yellow. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Gold Coin—Another yellow dent variety with medium size cob and very deep kernels. Ears ranging from 9 to 12 inches long and with 16 to 18 rows. The seed we offer this year is local-grown but the original stock was purchased direct from Mr. Wing, a nationally recognized corn grower. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Iowa Silver Mine—An early white corn that is quite in demand, because it early. If planted at the same time as your yellow varieties it will mature about 15 days earlier. Fine for grinding into meal. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Boone or Johnson County—A fine white dent variety with ears averaging 10 inches in length and 7½ to 8 inches in circumference with 18 to 20 rows. Matures in 110 to 120 days. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.35; 5 Bu. @ \$1.30.

Increase Farm Profits

By Lowering Cost

SEMESAN JR.—(Improved) For seed, field and sweet Corn. Simple, quick, effective. Costs only 2½c an acre. Protects Seed from rotting in cold wet soil, makes earlier planting possible. 4 oz. 50c; 1 lb. \$1.75. Cannot be mailed.

SEMESAN—Makes seeds healthy. Semesan is the answer to the disease problems for the flower and vegetable grower.

2 oz. can 50c.

CERESAN (Improved) For Oats, Wheat and Barley. One pound treats 32 Bu.

1 lb. 75c; 5 lbs. \$3.00.

Ensilage Corn

Eureka—This variety is a double purpose Corn, for aside from being a first-class ensilage Corn it can be used as a field Corn. It is tall and leafy, 12 to 15 feet high, with an enormous growth of fodder. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.50; 5 Bu. @ \$1.40.

Pamunkey—The heaviest producer of all ensilage Corn. It is of strong and vigorous growth, attaining a height of 13 to 15 feet, yielding an unusually heavy growth of fodder, and usually bears two ears to the stock. The ears are 10 to 12 inches long, 2¼ to 2½ inches in diameter, with a good depth of grain. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.50; 5 Bu. @ \$1.40.

Virginia—This variety is more on the type of ordinary field Corn, however, it makes a large growth of broad, thick, succulent fodder and is a fine ensilage Corn. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.50; 5 Bu. @ \$1.40.

Blue Ridge—A selection from the Pamunkey Ensilage Corn but is about ten days earlier. Within the past few years this Corn has been used in the Valley and has proven to be an excellent variety for this section. 1 pk. 40c; 1 Bu. (56 lbs.) \$1.50; 5 Bu. @ \$1.40.

STOP BIRDS FORM PULLING

PLANTED SEED USE

Cro-Tox

The Sure-Fire Repellent
(Non-Poisonous)

It keeps crows, larks, starlings, doves, blackbirds, pheasants and other corn pulling birds from molesting corn while it is germinating, sprouting and rooting. Saves seed loss and labor of replanting. Will not clog any planter.

½ pint., 1 bu., size60c
1 pint, 2 bu., size\$1.00
1 quart, 4 bu., size\$1.50
Postpaid

Sugar Cane

Sugar Drip—It makes a large, juicy and succulent growth. It will yield about 65 per cent of the weight of the cane in juice when extracted by a good farm mill; a stronger mill should extract as much as 75 to 80 per cent. Well adapted for Virginia. 1 lb. 15c; 5 lbs. 60c. Not Postpaid.

Early Orange—Another excellent Cane for both sorghum and forage crop. 1 lb. 15c; 5 lbs. 60c. Not Postpaid.

Broom Corn

Any land that will grow Corn is adapted to Broom Corn. When the ground is thoroughly warm plant in 3½ foot rows, thinning out to 8 to 10 inches in the row, and cultivate like corn. Cut when the seeds are at the dough stage. Six lbs. plants an acre.

Standard Evergreen—10 to 12 feet tall and yields a bush with long, straight fiber without heavy center stems and free from crooked brush. 1 lb. 20c; 5 lbs. 75c.....Not Postpaid.

Spring Barley

For the past few years we have sold quite a bit of this variety of Barley and have found it to be very satisfactory. As a result of the satisfactory reports the demand is increasing each year. Sow in March and April at the rate of 2 bushels per acre. 1 Bu. 90c; 10 Bu. 85c per Bu.

Rape Seed

DWARF ESSEX

This crop is very highly recommended for cattle, sheep, hogs and poultry. Sow in early Spring 3 to 5 pounds per acre in drills, or 8 to 10 pounds per acre broadcast. Also an excellent green to use on the table.

Lb. 8c; 10 lb. 7c per lb. 25 lbs. 6c per pound; 100 lbs 5½c per lb., not postpaid.

All prices on Field Seeds are subject to change without notice and F. O. B. Harrisonburg except where otherwise noted. If ordered by mail add 10c for first pound and 1c extra for each additional pound. Bags included on all items except Clovers and Timothy.

Hairy Vetch

CULTURE—Vetch may be sown as early as the ground will permit in the Spring, at the rate of 15 pounds to the acre with one bushel of Oats to hold it up. May be sown same way in Fall, only using Winter Rye in place of Oats.

Vetch is a wonderful land improver. The Oats and Rye hold the Vetch up, and improve the quality of hay. Lb. 12c; 50 lbs. and up 10c per lb. Not Postpaid.

Soy Beans

Culture—For hay broadcast 1½ bushels per acre, for seed 1 bushel. Cow Peas and Soy Beans should not be sown in Virginia until the latter part of May or first of June.

Care—If a crust forms on the land before the Soy Beans come up, break it up with a harrow. This will prevent what is commonly call "breaking their necks."

	1 Bu.	5 Bu.	10 Bu.
Virginia, (Brown)	\$2.25	\$2.20	\$2.15
Black Wilson	2.25	2.20	2.15
Mammoth Yellow	2.25	2.20	2.15
Illini	2.20	2.15	2.10

Note—The Illini Soy Beans takes its name from the University of Illinois who is responsible for its origin and cultivation. It develops and matures in the same time (105 days) as the Manchut but produces both a better hay and bean crop. Beans are firm and shatter less when harvested than the average variety. It starts to branch out lower on the stem, making more foliage and therefore more hay.

Cow Peas

Culture and Care the same as for Soy Beans.

Black (Medium)	Ask for Prices		

Tennessee Cultivated Millet

Millet

Tennessee Cultivated—(Round Seed.) This Millet withstands drought better than all other varieties. It is used as a Summer hay crop and particularly adapted to rich or bottom soils. It should be sown thickly and cut when the heads are in bloom, never allowing it to get old or seed to form as this causes a great drain on the soil besides materially injuring the quality of hay. Very useful for cleaning rich, foul lands of weeds as its quick, abundant, luxuriant growth smothers most weeds. Sow one bushel per acre in May, June or July. Two crops can be seeded on the same land in one season, if desired. An ideal crop to sow with Cow Peas. 5c. lb.; 1 Bu. (50 lbs.) \$2.00.

Japanese, or Barnyard—(Called Billion Dollar Grass) Distinct from other millets; grows 4 to 6 feet high yielding an enormous crop that in quality is equal to cornfodder and is relished by stock. Sow in May, June or July 20 lbs. to the acre broadcast; or plant in 15-inch drills and cultivate until it is 18 inches high. When green, feed a moderate quality at first, gradually increasing the quantity as the animals become accustomed to it. Ask for Prices.

Cyclone Seeder

An excellent crank operated seeder at an attractive price for all. \$2.15 postpaid.

HORN SEEDER

Makes even broadcasting a sure process in the hands of all users. 80c; 90c postpaid.

Wetsel's Dependable Flower Garden Offerings

Calendula Chrysantha

1934 All-American Flowers

The following seven sorts are included in the 15 Novelties selected by the All-American Committee of the A.S.T.A. as the best introductions for 1934. **Calendula, Chrysantha or Sunshine** (Gold Medal)

This valuable addition is distinctly different in flower form, having a striking resemblance to a Chrysanthemum. Flowers 4 inches across, are clear buttercup yellow on long stems for cutting, and grows about 30 inches tall. Pkg. 10c.

Petunia, Pink Gem (Gold Medal) The first of a charming new race of plants 5 to 6 inches high, quite covered with 2 in. flowers in shades of pink. Fine for bedding, edging, window boxes, pots, and rock gardens. Pkg. 10c.

Larkspur, Rosamond (Gold Medal) A pure rose, self colored, tall double Stock-flowered Larkspur, outstanding in its class. Seed stock very scarce. Pkg. 15c.

Aster, Los Angeles (Award of Merit) Los Angeles is a new Super Giant type, 3 ft. tall. The flowers are full petaled, deep and unusually large, yet artistically graceful in the feathery effect of the interlacing petals. The color is a pure shell pink, one that has been entirely lacking in the Giants of California. Pkg. (100 seeds) 10c.

Canterbury-Bell, Liberty Bell (Award of Merit) A dark violet-blue annual Canterbury-Bell blooming in six months from seed. Growth 2 to 2 1/2 feet high, each plant having from 6 to 8 spikes of flowers. Continues until frost. Good as a potted plant. Pkg. 10c.

Hunnemania, Sunlight (Award of Merit) Tulip Poppy. Clear canary yellow. It develops a band of short petals on the outside rather than the inside of the cup. This adds to the size and beauty. Cut flowers are lasting and produced over a long period. Pkt. 10c.

Verbena, Spectrum Red (Special Mention) New giant-growing Verbena. Intense bright red with out eye. Strongly recommended as the brightest Verbena in existence. Pkt. 10c

ANNUALS

A selected list of new and old varieties that are popular and easy to grow.

	Pkt.
Ageratum Mexicanum , (Floss-Flower) Blue Perfection. 9 in. tall	5c
Alyssum (Sweet Alyssum or Mad Wort) White. 6 in. 35c per oz.	5c
Aster, Improved Giants of California —Beautifully curled and interlaced flowers. Mixed	10c

Stokesia , (Cornflower Aster) Blue	10c
Tritonia , (Red Hot Poker) Hybrida	10c
Tumica —Saxifraga—Pink Flower	5c
Veronica , Maritima (Longifolia) Blue Flowers	5c

NOTE—We will offer for our counter trade a selected list of named older standard varieties of slightly smaller, two year old field grown rose bushes at 39c each; 3 for \$1.00. Not postpaid.

All flower seeds and roses mailed postpaid.
NOTE—Items not quoted other than packages can also be supplied in ounces.

THE WETSEL SEED COMPANY, INC., gives no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any seeds, bulbs, or plants they send out, and will not be responsible for the crop.

Choice List of Wetsel's Dependable Roses

Outstanding Novelties for 1934 Bloom

Our Spring offering consists of a limited list that has been selected only after receiving an excellent rating from the American Rose Society, and a thorough test of each variety locally to make certain it is an outstanding Rose and perfectly adaptable to Virginia growing conditions. Our Roses come from northern growers, selected because of their reliable plants. They are number one, dormant, field grown, two-years old, budded on stock with an extra strong root system.

Blaze—(Plant Patent No. 10) The New Hardy Everblooming Climbing Rose with color of Paul's Scarlet Climber and the everblooming habit of Gus and Teplitz, thus combining the best features of both its parents. Blaze received the 1933 Certificate of Merit at Bagatelle, the highest possible award for a climber. Fast growing and perfectly hardy. \$2.00 each; 5 for \$9.00.

Golden Climber—(Mrs. Arthur Curtis James) Plant Patent No. 28. Honored by having picture on frontispiece of American Rose Annual, 1933. Golden Climber is a distinctly new departure in hardy climbers giving bloom of Hybrid Tea type and quality, long lasting, and most always solitary on stems often 18 inches long. One of the most handsome "vines" to cover a fence, trellis, pergola, or garage wall. Golden Climber does not make a short flash like most climbers but its usefulness and beauty are long lasting. After being established it develops a remotent character. \$2.00 each; 5 for \$9.00.

Amelia Earhart—(Plant Patent No. 63) Very large bud; enormous size bloom, full to the center, graduating from intense yellow in the center to large outside cream petals overlaid with a faint blush. Extremely fragrant. Stems long and strong. A very vigorous plant producing freely. \$2.00 each; 5 for \$9.00.

Countess Vandal, H. T.—(Plant Patent No. 38) The sensation of the shows. A large bud of this Rose was featured at the Century of Progress

Olympiad

Exposition. Received all the medals and trophies of the foreign Rose shows in 1931. Toronto Rose Society Gold Medal after two years tests in Canada. Large pointed bud and distinctive shadings of coppery bronze, suffused with soft gold. The blooms finish in a very unusual arrangement of petals reflexed with a silvery sheen. \$1.50 each; 5 for \$6.50.

Mary Hart, H. T. (Plant Patent No. 8) A striking Red Sport of Talisman. The bud is maroon red, opening to well-formed blossoms of deep, velvety blood-red with an overglow of amber. Mary Hart equals or is better than Talisman as a producer, with sturdier, heavier stems, and is a strong grower. \$1.50 each; 5 for \$6.50.

Souvenir, H. T.—(Plant Patent No. 25) Souvenir, a Golden Talisman, is one of the loveliest of Roses. Its bloom is a rich, deep, golden-yellow, and it is a prolific producer of fragrant flowers for cutting. Has all the desirable features of Talisman. \$1.00 each; 5 for \$4.50.

Mrs. J. D. Eisele, H. T. (Plant Patent No. 67) (Howard & Smith 1933) This Rose won gold medals at the Atlantic City Flower and Garden Pageant, The Philadelphia Flower Show, and the International Flower Show during 1933. Its form is perfect in every stage of development. In color it is a luscious shade of cherry-rose overlaid with a scarlet glow, each petal being bordered with a faint silver edging. Delightfully fragrant. Strong, vigorous, erect, branching in growth, and a very free and continuous bloomer. \$1.50 each; 5 for \$7.00.

Golden Climber

Edith Krause, H. T. (Max Krause 1931) Probably the most beautiful white Rose in existence. Very large white bud with a greenish tint, opening to a majestic perfumed bloom of pure white. Long, strong stems for cutting, unusually hardy. \$1.50 each; 5 for \$7.00.

The following Novelties have been tested locally by us—They are outstanding in performance, hardiness, number of bloom, beauty of bud and open flower, length and strength of stem, size, and keeping qualities. A Rose must be perfectly suited to Virginia growing conditions before we include it in our preferred list.

Autumn, H. T.—(Coddington, 1928) Burnt orange, streaked and marked with red. Bud of medium size, developing into a cupped double, fragrant, attractive flower. \$1.00 each; 5 for \$4.00.

Eduard Schill, H. T.—(Kordes, 1931) Large ovoid bud and very large, full double flowers. The color as the buds first unfold is a rich coral scarlet overlying a deep old gold ground, as they develop passing to pretty coral rose with satiny golden suffusion. \$1.50 each 5 for \$6.50.

Golden Dawn, H. T. (P. Grant, 1929) A perfect garden rose. Included in American Rose Society List as having no serious criticism. The large, ovoid lemon-yellow bud is heavily splashed with crimson before opening and develops into a well-formed, sweetly-scented, large, double, high centered, sunflower yellow flower. Strong, vigorous, and free flowering. \$1.00 each, 5 for \$4.00.

Hinrich Gaede, H. T. (W. Kordes, 1931) Long-pointed shapely bud of nasturtium-red color. Large, double, high centered flowers of ideal shape of a color unusual and unlike any Rose in commerce. Stems are strong and long. Blooms are produced in quick succession throughout the season. The best introduction of the year. Blue Ribbon as the best three specimens in a vase at the Garden Club of Virginia Rose Show, Orange Va., June, 1933. \$1.50 each; 5 for \$6.50.

Heinrich Wendland, H. T.—(W. Kordes' Son, 1930) The flowers are large, fairly full, sweetly perfumed, golden yellow, and vivid nasturtium-red on opposite surface of petals. Long lasting when cut, having long strong stems. This is one of the finest of the new highly colored Roses. Resembles Talisman to some extent but has high centered shapely bud. \$1.50 each; 5 for \$6.50.

Impress, H. T.—(Alex. Dickson & Sons, 1929) Very large, full, absolutely perfect blooms that last in perfection a long time; color salmon-cerise suffused with a luminous golden sheen; the bud is large, of ovoid form, cardinal red shaded orange; growth strong; a free and continuous bloomer. \$1.00 each; 5 for \$4.00.

Kidway, H. T.—(Pernet-Ducher, 1933.) Long pointed bud and full, shapely flower. Color is delicate salmon rose overlaying a creamy yellow ground; the lower halves of the petals are a golden yellow. Strong grower, prolific, good stems, healthy foliage. \$1.50 each; 5 for \$6.50.

Lady Fortevoy, H. T. (R. R. Cant., 1929) Large, double, high-centered, lasting, extremely fragrant, golden copper flower, changing to deep apricot, flushed with cardinal red. Born several together or single on long strong stems; free and continuous bloomer. Has distinct charm and glorious color. Won Blue Ribbon as best specimen multi-colored Rose at the Garden Club of Virginia, Rose Show, Orange Va., June 1933. \$1.00 each, 5 for \$4.00.

For Spring Planting

Place your order early as we do not stock these Rose plants but deliver them to you direct from our northern grower. Full planting instructions will accompany each shipment.

McGredy's Scarlet, H. T.—(McGredy, 1929) A new Rose of marked superiority on account of its strong growth, free and continuous habit of flowering, and its brilliant color. Flowers more crimson than scarlet part of season, but always good. One of the showiest roses grown.....\$1.00 each; 5 for \$4.00.

Olympiad, H. T.—(Mme. Raymond Gaudard) (Pernet-Ducher, 1932) This brilliant new Rose is unique—a lustrous dark Oriental scarlet, its depth of color accentuated by the golden base and intensified by a rich velvety sheen. The bud is long and pointed and the flower magnificent in every state of development. Awarded Gold Medals during 1932 at the Atlantic City, Philadelphia, and New York Flower Shows \$1.00 each; 5 for \$4.50.

Portadown Fragrance, H. T.—(McGredy, 1931) A Rose that pleases not only on account of its beautiful formation and color but also for its remarkable sweet fragrance. A double bloom of very large size, orange pink, follows a bud of clear orange. Good form. Plant fairly tall of good habit and handsome foliage. \$1.25 each; 5 for \$5.00.

W. E. Chaplin, H. T. (Chaplin 1929) The best all purpose red Rose we have found in ten years of testing. Color deep crimson, deeping to carmine crimson. Does not blue or burn under the hottest sun. Color same as Etoile de Holland at its best but always has perfectly shaped buds on long strong stems. A very free continuous bloomer. Delicate fragrance. \$1.00 each; 5 for \$4.00.

General List of Older But Truly Worth While Varieties

We have grown these Roses for a number of years and found them worthy of a place in every garden.

Briarcliffe, H. T.—Brilliant rose-pink, outer petals shaded lighter. 75c each; 5 for \$3.50.

Charles P. Kilham, H. T.—Oriental-red, flushed with orange and scarlet. \$1.00 each; 5 for \$4.00.

Cuba, H. T.—Semi-double, Vermillion scarlet with orange suffusion. A good bedder. 75c each; 5 for \$3.50.

Dainty Bess, H. T.—Single, shell-pink with crimson stains. 75c each; 5 for \$3.50.

Duchess of Wellington, H. T.—Saffron yellow, stained deep crimson. 75c each; 5 for \$3.50.

Edith Nellie Perkins, H. T.—Oriental red shaded cerise-orange. \$1.00 each; 5 for \$4.00.

Etoile de Holland, H. T.—Crimson red. Most popular red Rose. 75c each; 5 for \$3.50.

Feu Joseph Looymans, H. T.—Long pointed buds. Indian yellow and burnt orange. 75c each; 5 for \$3.50.

Joanna Hill, H. T.—Clear yellow with golden heart. A perfect exhibition Rose. 75c each; 5 for \$3.50.

Margaret McGredy, H. T.—Oriental red passing to carmine-rose. The best bedder grown. 75c each; 5 for \$3.50.

Blaze

Roses, Spring Bulbs, Etc.

- Mevrouw G. A. VanRossem, H. T.—Vivid orange and apricot with touches of orange. \$1.00 each; 5 for \$4.00.
- Miss Rowena Thom, H. T.—Rose-pink, golden suffusion, large, shapely. 75c each; 5 for \$3.50.
- Mme. Butterfly, H. T.—Bright light pink, shaded with gold. 75c each; 5 for \$3.50.
- Mme. Jules Bouche, H. T.—White, tinted pink at times. Always dependable. 75c each; 5 for \$3.50.
- Mrs. E. P. Thom, H. T.—Best yellow Rose. Lemon yellow sweetly scented. 75c each; 5 for \$3.50.
- Mrs. Pierre S. du Pont, H. T.—New. One of the very best yellows. \$1.00 each; 5 for \$4.00.
- Mrs. Wakefield Christie Miller, H. T.—A perfect bedder. Light pink. 75c each; 5 for \$3.50.
- Polly, H. T.—Long pointed golden-yellow buds flush with pink. \$1.00 each; 5 for \$4.00.
- Pres. Herbert Hoover, H. T.—Cerise-pink, flame, scarlet, yellow. 75c each; 5 for \$3.50.
- Radiance, H. T.—Carmine pink. 75c each; 5 - \$3.00.
- Red Radiance, H. T.—Cerise. 75c each; 5 for \$3.00.
- Talisman, H. T.—Reverse of petals yellow, inner petals gold and deep rose pink. 75c each; 5 for \$3.50.
- Ville de Paris, H. T.—Buttercup yellow. 75c each; 5 for \$3.50.

Wilhelm Kordes, H. T.—Vivid salmon-pink shaded with orange, and yellow. 75c each; 5 for \$3.50.

Our listing is limited to varieties we have grown and observed personally. Should you desire other varieties we can furnish them at the prevailing prices. We will pay delivery charges on dormant plants. After April 1st, potted plants are usually supplied on which the buyer pays transportation charges.

Note—We will offer for our counter trade a selected list of named older standard varieties of slightly smaller, two year old field grown rose bushes at 39c each; 3 for \$1.00. Not Postpaid.

Selected Gladioli

(FIRST CLASS BULBS)

Gladioli hold an ever increasing interest not alone for their rainbow splendor in border and garden but even more for their value as satisfactory long-lasting cut flowers. Their cultural requirements are exceedingly simple and no other garden flower gives so much and costs so little.

American—Produces heavy, strong spikes closely set with lovely large lavender-pink blossoms. 4c each; 40c per doz.; \$3.00 per 100.

Betty Nuthall—A sparkling, iridescent orange-pink deepening to coral on the petal reverse. Golden orange, throat lined, carmine-rose. Enormous flowers often 6 inches across. 7c each; 55c per doz.; \$4.50 per 100.

Evelyn Kirtland—Large coral-pink flowers with deeper edges and a beautiful large scarlet blotch. 4c each; 40c per doz.; \$3.00 per 100.

Le Marechal Foch—The delightful clear pink color of a newly blown wild rose, without markings of any kind. Well placed on the spikes and of really giant size. One of the finest early sorts. 4c each; 40c per doz.; \$3.00 per 100.

Los Angeles—Shrimp pink enhanced by a white blotch in the throat. 4c each; 40c per doz.; \$3.00 per 100.

Minuet—Clear light lavender with just a hint of opalescent shading. In our opinion this is still the finest of all lavender varieties. 7c each; 55c per doz.; \$4.50 per 100.

Mrs. Francis King—Flame scarlet with salmon shading. Tall, very strong, and one of the finest for cutting. 4c each; 40c per doz.; \$3.00 per 100.

Fancy Leaf Caladium

Gladioli

Mrs. Frank Pendleton—Satiny salmon-pink flowers with flare wide open and show a large blotch of velvety crimson in the throat. The combination is most pleasing and harmonious. A very popular and robust variety. 4c each; 40c per doz.; \$3.00 per 100.

Peace—Magnificent white blooms with pale violet feathering on the lower petals. Good variety of great vigor. 4c each; 40c per doz.; \$3.00 per 100.

Pfitzer's Triumph—A gorgeous Amaryllis-like flower of brilliant scarlet with salmon shadings. Deepens to cherry velvet in the throat. Considered the largest and finest Gladioli ever introduced. 8c each; 65c per doz.; \$5.50 per 100.

Schwaben—Large heavy-textured petals of a clear citron yellow with just a tiny mahogany-brown in the deep throat. A sturdy, robust favorite in strong demand. 4c each; 40c per doz.; \$3.00 per 100.

War—Its giant flowers are arranged in massive spikes giving a splendid display in the garden or as cut flowers. The color is an intense rich blood-red with a velvety crimson shading in the throat. 4c each; 40c per doz.; \$3.00 per 100.

W. H. Phipps—A really novel Gladiolus with clear pink blooms overlaid with a warm glow of salmon rose. The lower petals are faintly flecked ruby red. Huge flower-spikes of truly enormous size. 6c each; 50 per doz.; \$3.75 per 100.

Virginia—Intense scarlet, slightly deeper in throat. Extra fine, early, and much in demand. 4c each; 40c per doz. \$3.00 per 100.

Mixed—Good assortment of popular varieties. Box of 12 bulbs 30c each.

Cannas

(FIRST CLASS BULBS)

Cannas bloom from early summer until frost in all sections of the country. They succeed in any sunny position and in any kind of soil, though they respond quickly to liberal treatment.

Hungaria—Plant dwarf and compact; flowers rich peach blossom pink; free, early and continuous bloomer. Foliage green and very massive; height, 3½ feet.

King Humbert, Red—Truly a king among Cannas, because of its majestic growth, which is doubly enhanced by its massive truss of coppery scarlet flowers; foliage is deep bronze; 4½ feet.

King Humbert, Yellow—(Queen Helen) A sport of the well-known bronze-leaved variety, but with green foliage; about 4½ feet high, with masses of golden yellow flowers, dotted red; occasionally some will be streaked red.

Richard Wallace—Large, showy pure canary yellow flowers carried on good stems; green foliage; 4½ feet.

Your choice of any of the above varieties. 5c each; 50c per dozen.

Caladium

Caladium (Elephant's Ear) Mammoth bulbs 9-11 in. 15c each; 3 for 40c.

Fancy-Leaved—Covers a wide range of colors. Especially suited as potted plants. 25c each. 3 for 65c.

Tuberose

Single Everblooming—This is the single Tuberose which many gardeners prefer to the double kind because of its graceful habit. The pretty, white, fragrant blooms begin to appear in July and continue throughout the season. Each bulb develops from 2 to 5 spikes in succession. 8c each, 3 for 20c; 45c per doz.

Bleeding Hearts

An old-fashion favorite. Its long racemes of graceful heart-shaped pink flowers in May or June are always attractive. It is at home in any part of the hardy border and especially valuable for planting in shade; 1 to 2 ft. Strong clumps, 35c each.
